

GREENWARE[®]

100% Annually Renewable

Eco-Friendly Packaging

Fabri-Kal Greenware Products. Sustainable Style.

Introducing Greenware® Eco-Friendly Packaging

Greenware is a family of environmentally friendly packaging made from NatureWorks® biopolymer, a polylactic acid (PLA) resin derived entirely from plants instead of oil. All Greenware products are created from domestically grown renewable resources and are manufactured in the U.S.A. Crystal clear Greenware cold drink and portion cups offer complete product visibility to highlight any food or beverage. Certified to be compostable in actively managed facilities where they exist, Greenware products are a stylish and sustainable solution in foodservice packaging.

Compost & Disposal

Greenware products are certified by the Biodegradable Plastics Institute (BPI) to meet international standard ASTM 6400 for compostability in actively managed municipal or industrial facilities where they are available. Due to the variability in conditions, home composting of Greenware products is not recommended by Fabri-Kal.

Greenware products break down into carbon and water, like other matter derived from plants, in properly managed composting facilities with mature compost, constant temperature control and specific relative humidity for good biological growth. Correctly done at 150° F and 90% relative humidity, products will completely compost in approximately 50 days.

Greenware® Packaging ■ Features & ● Benefits

- Made from NatureWorks® biopolymer
 - Resin derived entirely from natural and renewable resources
 - Crystal clear for complete product visibility
 - Durable material unsusceptible to flavor or odor transfer
 - 100% compostable where managed facilities are available
- Made in U.S.A.
 - “Sourced locally” and manufactured domestically
- Smooth rolled rims
 - Safe, comfortable surface
 - Leak-resistant snap-fit lid application and removal

Marketing Advantage

Leveraging your use of Greenware as a marketing opportunity to create awareness of your environmental practices can result in increased sales, goodwill and customer loyalty. Fabri-Kal provides point of sale materials including posters, stickers and table tents free to operators to educate your patrons.

Stock Print Program

The Greenware stock print program draws on the established imagery and phrases of the Greenware brand to promote your environmental leadership. The attention grabbing design and consistent messaging ensures an integrated marketing campaign with no typical print minimums. Available now on most drink cups; soon on all portion cups.
