

*Practical Sense,
Elegant Image*

*Upscale, single-use compostable products
that are environmentally friendly*

WNA's compostable line of products is an ecologically sound and practical choice. EarthSense™ offers superior performance and appearance vs. other "green" disposable products.

EarthSense™

Plates and cutlery offer sufficient heat tolerance for hot meals up to 160° F.

- Compostable in a municipal or commercial composting facility.*
- Made from an FDA compliant renewable source derived from corn or other vegetables.
- Meets compostability standards established by BPI (Biodegradable Products Institute), including ASTM D6400 and EN 13432 standards.
- Tested and approved at the nationally recognized Cedar Grove composting facility.
- USA manufacturing reduces the carbon footprint vs. imported 'green' products.
- Lower disposal fee vs. standard landfill rates (check with your local commercial composting facility for rates).

* WNA compostable products need to be disposed of in an appropriate commercial composting site (which may or may not be available in your area). Please contact appropriate municipal authorities.

Product Specifications
